

Sewage system ready

The sewage system for the Village of Haliburton, is now in operation. This is sure good news to the many people who are getting ready to hook on. After months of delays it is finally ready.

The Municipality of Dysart et al have informed the Echo that sewage is now being accepted at the treatment plant and they are urging all owners fronting on the collector system to arrange connection at the earliest possible date.

Now is the time to line up

your favourite plumber and make arrangements to get hooked on, as some of them have already got a waiting list.

It is expected that the second phase of this operation which will take in the other half of the village will be started very soon.

The road and the area leading into the treatment plant has been paved and new lights have been installed to light up the area in the evening.

Truck and guns stolen by Harcourt youths

A police alert went out late last Wednesday, September 24, when a pick-up truck and two rifles were reported stolen from the Chester Schwandt Lumber and Building Supply property located in Harcourt, Ontario. Provincial Police, Minden Detachment said the 1974 G.M.C. truck with the trade name Homecare Building Centre on both sides had a cracked windshield and a damaged tailgate and taken along with a .30.30 and a .22 calibre rifle.

On Saturday the stolen pick up and rifles were recovered in Carp Ontario (near Ottawa), and as a result the four Harcourt youths have been charged with break, enter and theft and with theft over \$200. Constable W.L. Clendenning of the Minden O.P.P. Detachment investigated the thefts which led to the charges being laid against George Kenneth Lewins, age 16, and three juveniles ranging in age from 11 to 15 years.

Local boy to referee in the WHA this season

We have just been informed that Michael Pritchard, son of Mr. and Mrs. Ken Pritchard of Haliburton has signed a contract to referee

in the World Hockey Association for the 1975-76 season. He will be working out of Toronto.

Haliburton Highlights

The Haliburton Highlands Pioneer Museum at Haliburton is closed for the season.

This coming Monday, October 6th a Panasonic Micro-Wave Demonstration will be held at the Royal Canadian Legion Hall in Haliburton with two demonstrations, one at 2:00 p.m. and the other at 7:30 p.m. It is being sponsored by Arrow TV and Communications of Haliburton.

The Ministry of Natural Resources has announced that a Hunter Safety Examination will be held at the Ministry of Natural Resources on Highway 35 at Minden, on Wednesday, October 22, 1975 between the hours of 8:00 a.m. and 11:00 a.m.

The Village of Haliburton was ablaze with colour over the past weekend when the leaves seemed to hit their peak. But come on up this weekend they are still going to be good.

Who says that prices are going up. There coming down in Haliburton. The Ol' Barn Tavern at Haliburton has announced that they are selling coffee at 15c a cup.

Mr. Moss Handley, Mrs. Ella Watson and Gordon Cruikshanks attended the Plowing Match at Oshawa, last Wednesday and all report a good time.

15 CENTS

The Haliburton Legion Pipe Band and the Pipes and Drums from Lindsay are shown winding their way up Highland Street in Haliburton last Saturday when they paraded from the Haliburton

Highlands Secondary School to the fairgrounds to kick-off Festacolor '75. A good crowd lined the parade route to listen to these two great bands. Photo by Bill Van Veen.

Increased break-ins at the end of the summer season

THE Minden Detachment of the Ontario Provincial Police have numerous break, enter and theft reports to investigate as the past week indicates that the summer season has come to an end in the Highlands of Haliburton. Break, enter and theft reports have reached the office of the Minden O.P.P. from the following: Frank

Cowan of Princeton on September 24, at Kushog Lake where stolen goods valued \$800. of which \$650. in goods have been recovered; Ian Wallace of Scarborough on September 26, near Haliburton on Highway 519 where stolen goods totalled \$50.; Mrs. Lehtinen at Echo Bay on September 26, with \$400. in valuables taken; John Neglia of Toronto on September 26 on the Buller Road with \$450. in goods taken of which \$250. in goods have been recovered; Robert John Winters of Toronto on September 27 at the Green River with an amount of

\$800. stolen; Brian Kenneth Kitching of Toronto on September 27, at Grass Lake with \$20.; Warren Wakefield on September 27, at Wren Lake with \$140. stolen; and Mr. Devolin of Toronto, Louis Sarracini of Mississauga, Sam Ciccolini of Weston and William Saunders of Burlington all at Kushog Lake where an unknown amount of goods were stolen on September 28, of which \$60. in valuables have been recovered.

As a result of an investigation in the Harcourt area it has been learned that three break, enter and thefts have occurred in the Village of Haliburton. These crimes occurred more than one week

ago and at the time of writing they have not been reported to the Ontario Provincial Police at Minden. Investigating officer O.P.P. Constable W.L. Clendenning will be contacting the seemingly unconcerned victims as soon as possible.

A hole in one

John Wilson of Haliburton got his name in the Golf Hall of Fame last week when he had a hole in one at the Haliburton Golf Club.

The hole in one came last Friday afternoon when he was playing a round of golf with his father Ken. It happened on the 6th hole. His drive was a good one and the ball rolled onto the green hit the flag pole and rolled in.

We might add here that John had an excellent round shooting at 32.

Wilberforce man wins lucky draw

Mr. Allan Scott of Wilberforce was the winner of an Afaghan at a draw held at a social evening at the Wilberforce Legion on Saturday night.

Proceeds from this draw will be used for the Legion Building Fund.

Mrs. Bud Hull who has a cottage near Wilberforce drew the lucky ticket.

Work on the new Drag River bridge to start soon

We have just been informed that Logan Construction of Stratford have received the contract for the demolition and removal of the old Drag River bridge at Haliburton and that demolition work will begin this week.

The same firm have also been awarded the contract to build a modern new bridge on this same location.

This new project when completed will be a two lane bridge with a sidewalk and lights.

LaRue Motor Sales held open house

LaRue Motor Sales Limited at Haliburton, had their Grand Opening on Saturday, September 27th and the above photo shows the personnel who were on hand to greet the many customers and visitors who were in attendance for this occasion. Shown from left to right - Ed. Stevenson, Ford Motor Co. representative; Terry

Barnum, Secretary-Treasurer; Scott LaRue, President; Tom Cowen, I.A.C. representative; Brant Stamp, owner of Boice Motor Sales Limited; Albert LaRue, Vice President; standing behind the counter, left to right - Susan Cully, secretary; Emily LaRue and Norma Barnum - Photo by Dal Hubbert.

Susan Cully is shown pouring coffee for two of the owners and their wives; Mr. and Mrs. Terry Barnum and Mr. and Mrs. Albert LaRue, at the

Grand Opening of LaRue Motor Sales Limited held on Saturday. Photo by Dal Hubbert.

Watch those dangerous crib toys

An eight-month old baby died in her crib recently. An investigation showed death by asphyxiation. Presumably, the infant had been playing with a small plastic rattle and had fallen face down, jamming the object into her throat. This tragic incident prompts the Ontario Safety League to once again warn parents on the dangers of leaving rattles, teething rings and small toys in a crib with an unsupervised infant. Suffocation can and does happen -- even in the interval between frequent crib checks.

Large, plush toys can also cause suffocation to the infant who has not yet developed the protective reflex action to push objects

off the face. Crib toys with small parts that could easily be swallowed should be avoided, as should toys that can break, exposing sharp edges. Pacifiers with small guard shields have been banned in Canada for some time. Rings and handles of pacifiers must remain attached or be either flexible or hinged to prevent injury, should the child roll face down with the object in the mouth. However, despite these government safety precautions, parents are still warned not to hang a pacifier around an infant's neck. The string or chain can easily catch on something and strangle a struggling child.

Dr. R.J. Imrie, prominent

pediatrician and a director of the Ontario Safety League, said that many parents waste precious time in attempting to remove foreign objects from a baby's nose, eyes and ears, or in trying to reach their family doctor. Emergency services are available in most hospitals with doctors in attendance at all times, he noted. Dr. Imrie suggested that, if you live within 25 miles of such a service, the baby should be taken immediately for medical attention. Attempting to remove an object from an infant's nose yourself is particularly dangerous, he said. It is too easy to push the object further up the nasal passage.

In removing foreign ob-

jects in the throat, Dr. Imrie said it is important to elevate the feet so that the baby's head is lower than the hips. He suggested picking the child up by the feet and hitting its back between the shoulder blades to propel the object from the windpipe. If that doesn't remove the object, and if the child is unable to cough or breathe, try to remove it from the back of the throat with your index finger. If wheezing occurs or coughing persists, consult a physician at once.

Dr. Imrie said; however, that such emergencies are unnecessary and can be avoided if crib and teething toys are removed while the baby is left alone.

Thoughts

From The Living Bible

One day a young priest from the town of Bethlehem, in Judah, arrived in that area of Ephraim, looking for a good place to live. He happened to stop at Micah's house as he was traveling through. "Where are you from?" Micah asked him. And he replied, "I am a priest from Bethlehem, in Judah, and I am looking for a place to live." "Well, stay here with me," Micah said, "and you can be my priest. I will give you ten dollars a year plus a new suit and your board and room."

Judges 17:7-11

Evangelical Fellowship of Canada

Trent-Severn waterway

During the last week the isolated showers have had little effect on lake levels and river flows. There has been a slight increase out of the various reservoir watersheds because of the rain.

The drawdown on the Kawartha Lakes, to provide storage in case of heavy rain, has stopped and the river flows past Peterborough are back to about 75% of the normal summer minimum.

Along the trails

by Roy Bates

I have just received the September newsletter of the International Snowmobile Industry Association and I notice that most of the articles therein paint a rosy picture for the future of snowmobiling. Here are just a few excerpts.

TRAIL MILES UP IN ONTARIO

Last year Ontario had but 1,100 miles of public snowmobile trails. This year the figure stands at 6,500 due to the Ontario government's recently implemented trail development program. The Ontario Federation of Snowmobile Clubs was the motivating force behind the program efforts. OFSC is currently working energetically to convince the Ontario government to revise the program in part and too expand and formalize the trail program as a permanent endeavor.

(As a director of OFSC, I can vouch for the truth of that statement. Some of the changes the OFSC would like to see are the inclusion of lake and portage routes in the program and the provision of a universal signing system that would be lasting and effective for day and night riding.)

Canadian Council of Snowmobile Organizations

At its annual meeting August 9 in Winnipeg, the CCSO established a Government Liaison Committee (Federal.) Serving on the Committee will be Bob Bousada (Federation des Clubs de Motoneigistes du Quebec), Rick Start (Ontario Federation of Snowmobile Clubs), Denis Blakeman (Alberta Snowmobile Association), and Bill Shields (British Columbia Snow Vehicle Association). Among the objectives toward which this committee will work are standardization of legislation, trail development and maintenance programs, and establishment of Search and Rescue Teams.

Quebec Has Done it Again!

It took six years to realize the 500 mile Mt. Laurier - Quebec city snowmobile trail and six

minutes to receive the go-ahead for a new 267-mile trail along the St. Lawrence River.

So advises Bob Bousada, who attributes the speed and relative ease in planning the new trail to the rapidly expanding expertise of those involved in the province's widely-envied trails program. The government is now experienced in administering the trails program, and the local clubs, which are an integral part of it, are well organized. Also of importance, business persons and merchants no longer have a "show me" attitude such as existed prior to the opening of the west-east Mt. Laurier - Quebec City trail.

The new trail will parallel the St. Lawrence from Boucherville, which is approximately 20 miles north of Montreal, to Levis, just across the river from Quebec City. This winter Quebec's trail miles are expected to exceed the circumference of the earth.

HCSA will Meet on Holiday Weekend

Because approximately 40 per cent of the club's members hail from outside the county, the Haliburton County Snowmobile Association has scheduled its annual meeting at a time when the greatest number should find it convenient to attend. Come to the Royal Canadian Legion hall in Haliburton, Sunday, October 12th, at 2 p.m.

As in former years it will be an open meeting. If you are not yet convinced that you should support the HCSA, and the OFSC, and the CCSO, and the ISIA all for one low fee, come to the meeting and let us explain it. Non-members, of course will not be eligible to vote.

Among the important matters to be discussed are the ways and means of making the Association more of a club with the provision of activities for the enjoyment of its members. We solicit your ideas.

It is also election time.

Haliburton News Letter

The Haliburton School of Fine Arts Fall Weekend Workshops continue on October 4th and 5th with Painting by John Leonard and Photography by John Barras Walker and Jean Irvine Walker. Accommodation for these programs is at picturesque Hunter's Horn Lodge on Lake Kashagawigamog near Haliburton Village.

Garnet Walter Stevenson passed away suddenly at his late residence in Minden on Tuesday, September 23, 1975. The late Mr. Stevenson who was in his 57th year was the beloved husband of Velma Davis, loving father of Lola of Kingston, Garwood of Minden and Judy at home, and grandfather of Sheila. The deceased rested at the Funeral Chapel of John Welch and Son Ltd., Minden until Thursday, September 25th where the service was held at 1:30 p.m. Interment was at Minden Cemetery.

Welcome to Oktoberfest which will be held at the Minden Community Centre on Saturday evening October 11th from 8 p.m. to 1 a.m. There will be Tid Bits, Dancing, Live Band, and a refreshment Garden. Admission is \$1.50 and it will be sponsored by the Rotary Club of Minden. Plan now to attend this big event.

Collisions between cars are not the main cause of traffic deaths in rural areas. The Ontario Safety League points out the surprising fact that most drivers who drive to death in the country, do so unaided. Non-collision accidents, such as roll overs or running off a curve, claim more lives than car-to-car collisions. And in the majority of cases the use of safety belts would have prevented death.

Both of the Minden and Haliburton Minor Hockey Associations are busy these days lining up the young hockey players who will be playing hockey in their organizations this coming winter.

It would appear to us that the Haliburton Highlands Secondary School will be coming up with another good football club this year. They lost their first game to Lindsay but they even looked good in defeat.

The Lindsay Central Exhibition which was held in Lindsay last week was once again plagued by inclement weather and we understand that attendance was down.

A good Horseshoe Contest was held at Fred Palmers' place, West Guilford on August 31. The winners were Lockie Morrison, Norm Joslin, Second Prize. The first prize were Muriel Alexander and John Lute. Six other Prizes were awarded, the other winners.

Editorials

Hunting Safety

To further improve the statistics, the Ontario Safety League requests experienced hunters to share their knowledge this fall with the younger men, many of whom will be shouldering a gun on their first hunt. They need your guidance and wisdom in gun handling. Besides all the points you can teach them on gun maintenance, they need to know the importance of:

*Treating every gun as if it were loaded, until they personally inspect the gun to make certain it isn't.

*Pointing the muzzle in a safe direction, so there is no possibility of it pointing at a person or member of a hunting group.

*Identifying the target as game. Inexperienced hunters should study pictures to develop a clear idea of the outline and features of the game they intend to hunt.

*Practicing self-control to insure that all actions in gun handling become habit.

*Deciding on zones of fire that each hunter will use in order to prevent the disaster of firing on a companion.

*Unloading the gun before putting it into a car or boat, climbing a fence, stopping for lunch or entering camp.

*Sitting close in a blind to prevent one hunter from getting in front of another hunter's muzzle.

*Resting a gun in such a position where the movement of a boat or dog will not cause it to fall and discharge accidentally.

*Walking cautiously, with shooting finger away from the trigger guard, so that a trip, slip or fall will not discharge the gun.

The Ontario Safety League agrees that the fall is a great time of year for outdoor sports activity. The League wants you to live to enjoy it.

Workers are needed

The hockey season will soon be with us once again and here in Haliburton County Minor hockey Associations are having meetings in preparation for the year ahead.

Just talk to anyone who has been involved in minor hockey and they will tell you that there is a lot of work in an organization of this kind.

In our opinion there is no better place than at the arena for a boy playing in the minor hockey association. If he plays minor hockey and joins in with the other boys, chances are that he will grow up to be a good citizen in the future.

The boys who play minor hockey should stop and realize just how lucky they are to have the opportunity to play in an organization where men are giving their time without charge so that they will have a chance to receive good coaching and learn to play in a sportsmanlike manner.

To operate a smooth hockey organization it takes a great deal of work and a lot of manpower. Each year it seems to be harder to rally enough public-minded citizens together to deal with the big task of looking after the various teams.

Each year it seems to be a problem to line up enough coaches, managers, referees and people to serve on the executive. Let us hope that this year will be different and that all these positions will be filled.

If you are thinking about the future of young boys think of this slogan. Keep a boy out of hot water by putting him on ice.

Yes the hockey season will soon be with us once again and we hope that boys throughout the county will go to their nearest arena and play minor hockey.

Letter to the Editor

Dear Editor:

As a follow up to the letter from Mr. B. Nesbitt of Bethel Church Rd., I would like to report the following. As requested by Mr. Nesbitt, I visited his home to discuss my previous Editorial Letter of August 20th. In all honesty I can say that our two hour conversation over a few cups of tea was most interesting and informative, particularly when Mr. Nesbitt recalled some of his earlier days in Haliburton. Despite our differences in age and background, Mr. Nesbitt and I discovered that we both enjoy a lot of things in common. We did not agree on certain issues but that was to be expected from the context of our letters. Once again Mr. Nesbitt, thank you for your time and hospitality.

I would like to direct the next part of this letter to the Haliburton County Economic Development Commission. After reading their criticism (Sept. 10th Editorial) of my Aug. 20th letter, I would like to clarify a few matters.

I can appreciate your problem of keeping your young people in the county. However, adequate housing can be accomplished without bringing such city eyesores as apartments and townhouses to Haliburton. Locating factories in Haliburton will not solve the problem. I do not believe that your EDUCATED young people would be satisfied with the UNEDUCATED type jobs that factories tend to produce. And, contrary to popular belief, locating industry in a certain area does not reduce the resident's tax burden of that area. If that was the case, then why do the people of the Bracebridge area pay much higher taxes than the people of Haliburton? Bracebridge has many industries including Corning Glass Works, Alcan, Fowler Construction and Rockwell International.

Most summer residents like better roads to a certain extent. We don't like to break our car axles in pot holes, but, we do like to drive down a good gravel road with the trees overhanging as opposed to a wide paved road. As far as services go, most of us are happy with just hydro. We city people really appreciate trees, wildlife, clean air and water and the serenity that some Haliburtons seem to take for granted.

I, personally, have no ambition to build a cabin, but, some of us can't afford or don't want to build anything larger. The people that don't want a cabin next door are strictly class conscious and belong among their own kind in Muskoka.

In your letter you say "If development ceases, the law of supply and demand will cause the prices of properties to skyrocket" Absolute nonsense -- if you believe that then explain why:

- (1) A house lot in Toronto costs more than a house lot in the country.
- (1) Cottage property in Muskoka costs more than cottage property in Haliburton.
- (3) A cabin with 100 acres costs more in the Madawaska Valley than it would on the shores of Hudson Bay.
- (4) Lots on Kashagawigamog Lake cost more than lots on Elephant Lake.

It must be obvious by now that more developed and serviced land costs more than undeveloped land. As for supply and demand - as more vacant land is developed, less of it is available for purchase, therefore, the price of vacant land has nowhere to go but up. Do you, H.C.E.D.C., care to explain your theory?

You say, "Planned, orderly development need not create pollution, unsightly strip development or overcrowding." Where was your 'planned orderly development' on the following issues?

- (1) Eagle Lake, at present surrounded by a substantial number of cottages, will now be overburdened with the arrival of a cluster cottage development (this prefab developer would like you to call it a village) centred around a "Mickey Mouse" ski hill that would send a beginner looking for whiter pastures after a few runs.
- (2) Miskwabi Lake, acclaimed as one of the finest bass fishing lakes in Haliburton, is now being threatened by multi-tiered backlots (affectionately known as chalet lots). The lake, according to Natural Resources, has a flushing rate of 10 years. In other words, the water you have now you will still have in 9 years. I have no doubts that the existing Miskwabi Lake cottagers will do their best to keep the lake clean. However, the odds are stacked against them if there are too many more lots allowed on the lake. Chances are you'll be kissing this lake goodbye.
- (3) Kennisis Lake, because of its large size and greath depth, may be able to hold its own against the approximately 600 cottages on its shoreline. But, alas, the only remaining undeveloped land on the lake (in Cat Bay) is now scheduled for more lots. Too bad some people just don't know when to quit.

(4) Ross Lake, a 60 acre pond in Harburn Twp., is being overwhelmed by approximately 30 lots by a prefab company. I just hope everybody on this lake doesn't decide to take his boat out at the same time.

(5) As a final example of 'planned and orderly development', I refer you to a letter in the Sept. 10th Editorial entitled 'Water' by Walter Noke. If what this gentleman says is true, and I have no reason to doubt the man, than I can only attribute the poor water quality of the Gull River system to the 'planned orderly development' of the area. It's too bad you didn't think about the past 20 years when you had the chance.

In Toronto we have such attractions as the new Zoo, Ontario Place, the CNE, the Ontario Science Centre, the great coho salmon run, etc. I'm sure the people of Haliburton enjoy these diversities when they visit the city. Likewise, we city folk find great pleasure in the comparatively quiet Highlands.

Those 300 thousand acres of public (crown) land are there to be used by all, locals and visitors alike. In Haliburton County alone they contain hundreds of miles of snowmobile, hiking and cross country trails, countless lakes and rivers that STILL contain fish, areas for picnics and camping, 4 provincial parks, a camp leadership reserve and over 200 hunt camps. It's a fact that crown land doesn't produce tax money. It is also a fact that it doesn't require much to service or maintain it. The tourists that use the crown land for recreation also patronize your local businesses. So what's the beef here?

I understand that 3 of the 5 members of the H.C.E.D.C. belong to the Chamber of Commerce. Keeping that in mind, read on! In their Sept. 10th letter, the H.C.E.D.C. stated that "the government controlled land (crown land) in Haliburton hinders development.. and hurts most of the smaller municipalities when there is little or no tax revenue available to them on these properties. In the sept. 17th Echo (page 8) under the heading 'News from the Chamber of Commerce', Bob Stinson of the Chamber had the following to say: "Last week we were fortunate enough to attend Participation Day at the Leslie Frost Resources Centre near Dorset... The Ministry of Natural Resources now make the facilities available to study groups, both children and adults, to learn more about our environment. Experts are available with display material to aid in teaching many subjects such as conservation, forest management, pollution control, trail maintenance, canoe handling and all phases of fish and wildlife. We are VERY FORTUNATE TO HAVE SUCH A VAST CENTRE in our County. Not only does it make its facilities available to our local schools, but study groups are coming in from all over the county and being introduced to the Highlands of Haliburton" It's ironic that the same people that criticise the existence of crown land should praise the Leslie M. Frost Resources Centre. It just so happens that the Centre is comprised of over 50,000 Acres of Crown Land.

It's fortunate that nobody takes you guys too seriously, otherwise Haliburton's public land would be completely ravaged by money hungry developers. That, to me, is a mighty big price to pay for extra tax dollars.

G.W. Benner

Pic of the past

The above photo was taken in June 1919 and shows the last log drive of the Mickle and Dymont Lumber Company. The picture was taken by the late Alfred Allcorn of Haliburton and the old bridge was located near St. Peters Church at

Maple Lake. Our thanks to Mrs. Sinc. Russell of Carnarvon for submitting this photo.

'Tough' time for teachers

Bill Smiley

LAST spring, while perusing about 80 applications for one job teaching English, I expressed sympathy for the young graduates of teachers' colleges, all set to go, wanting to be teachers, and scarcely a job in sight.

At the time, I suggested it was rotten planning: graduating about 10 teachers for each job available. I still think it is.

But the column brought a couple of interesting responses, which I haven't managed to get around to answering. Thought I'd do so now, as we are launched into a new year of teaching and learning.

Miss M. A. Buck of Windsor, Ontario, read the column in the *Tillsonburg News*, and took issue with it, in a lady-like fashion and the most exquisite handwriting I've seen in years. She writes:

"You have described the situation very well as it applies to the job market in the area of Secondary English; however, it concerns me that young people who are considering a career in teaching might think that there are no opportunities in teaching at all. This is far from true.

"There is a demand for Secondary teachers of Mathematics, Physics, Girls' Physical Education, Home Economics, Art, Music, Business and Secretarial subjects, and Technical areas. There are also excellent opportunities for those who wish to teach in the Public or

Separate Elementary schools."

Well, thanks, Miss Buck. This is heartening news. I don't know about the Maths and Physics. I doubt there's a "demand" for them, but there's always room for a good one.

Art and Music teachers are sitting pretty. But only because they are scarce. Any dope can teach English, as I am frequently reminded, but few young people have the talent and training for the arts.

Girls' Phys. Ed., yes. Perhaps this is because of attrition. A lot of the younger ones get married and have babies. And it's tougher and tougher to put the girls over the hurdles with each year you put on yourself.

Elizabeth Taylor, I am happy to say, will be able to make ends meet. And she has no need for a reunion with Richard Burton to do so. Liz is a young friend of ours, a contemporary of my daughter, and I nursed her through Grade 10, 12 and 13 English. She graduated last June as a Phys. Ed. teacher, and was hired by the first school she applied to.

She couldn't believe it when I told her how much money she'd be making — about \$11,000 a year. "Migawd, I'm rich!" Then we started to figure income tax, salary deductions for this and that, and cost of living. She won't even be well-to-do.

Home Ec.? Again, I agree. We lost a young lady

last June, because she had to move to the city. She had another job in two weeks. I don't know why they're scarce.

Technical teachers? Yes. There's a shortage. And a reason. About 15 years ago, quite a few technicians deserted their trades to enter teaching, not for more money, but for better working conditions, security — many reasons.

Over a decade they saw their former trades become more and more affluent, as wages went up and up, until the former electricians, mechanics, draftsmen, now teachers, were making considerably less as teachers than they would be as skilled workers, and with three times the tension. There are very few young technicians coming into teaching now. Who needs it, when he can make \$80 a day at his job, and leave it behind when he finishes work?

From F. W. Reinhold, Superintendent of Schools in the Fort Vermilion School Division, in the Peace River district of Alberta, came another missive.

Written at the end of last June, the letter says: "I read your article in the *Brooks Bulletin* re Tough Time for Teachers and am wondering if you are serious... There is no surplus of teachers in Western Canada... we still have 22 vacancies at the Elementary level and six at the junior-senior high level." Twenty-eight vacancies at the end of June. In one school district!

Mr. Reinhold enclosed a terse but shocking resume of his school board's attempt to staff its schools.

After extensive advertising in Alberta dailies, American newspapers, and listings with Manpower, here's the picture:

December, 1974: Wrote to 15 first-semester graduates at University of Lethbridge expressing interest in hiring them. Not one replied to my letters.

February, 1975: Extensive advertising and Manpower (received 45 applications).

Feb., 1975: Extensive advertising U.S. papers (approximately 400 applications received).

Feb., 1975: Conducted interviews U. of Calgary and U. of Alberta; 49 applicants interviewed. Three agreed to sign a contract.

May, 1975: 32 vacancies listed with Manpower. Two replies.

April and May: more advertising.

June, 1975: 40 vacancies. Only 54 applications were received from Canadian

teachers.

Result: three accepted contracts; 30 accepted contracts elsewhere; seven will not accept a contract at this time; five are not suitable.

So. When he wrote, Fort Vermilion School Division was short 28 teachers for September.

I take back all my sympathy, for young teachers. One of two things is obvious.

Either the Fort Vermilion School Board is one of the worst in the world, which I doubt.

Or all you young idealists, of both sexes, don't really want to teach that much. You want a nice job, in a nice school, not too far from Mom and Dad, in the city or close to it, where you won't get your feet wet or your hands dirty, won't be too cold or too lonely.

Otherwise, you'd be up there in Peace River, getting the experience of your young lives and finding out what makes you tick.

Quitting smoking?

Smokers who intend to kick the habit should obtain as much available information as possible before giving it a try, advises Health and Welfare Canada, the federal government department that has been urging people to quit the habit.

Two recent publications that provide hints and in-

formation on -smoking hazards and how to stop smoking are available from the department. One is a Smoking Self Testing Kit, the other is called "So - I'm Living Dangerously". Simply write to O.D. Lewis, Smoking and Health, Health and Welfare Canada, The Journal Building, Ottawa, Ontario, K1A 1B6, requesting either one or both.

Jim Chynoweth of Norland, Ontario is shown with his team of horses that took part in the Horse Drawing Contest held last Saturday night under the lights at the Haliburton Ball Park.

OTTAWA and Small Business

The Canadian Federation of Independent Business

The consultant bonanza

By KENNETH McDONALD

Remember the Glassco Commission on federal government organization? Between 1960 and 1962 it produced several hundred recommendations -- in six volumes -- on how to improve government efficiency at less cost. After announcing it would adopt certain recommendations, the government handed the job over to the same bureaucracy that was to be reorganized.

...

The bureaucrats' answer was to hire consultants to re-examine the recommendations and report back to them. Naturally the consultants weren't about to play down the importance of the people who had hired them or to recommend cutting out potential future employers -- quite the reverse. Both parties had the same incentive -- not to cut back but to build up.

...

Ten years later the con-

departments, new divisions of old departments, new agencies and more and more layers of highly paid officials regulating everything from egg prices to bilingual labels. What Canada needs is an updated Glassco report for action by Parliament, not by the bureaucracy.

...

Under the Consumer Labelling and Packaging Act, all non-food items sold in Canada since Sept. 1, 1975, require bilingual labels. The same will apply to food items from March

1, 1976. Last month a small Winnipeg oil company -- Radio Oil -- was threatened with seizure of more than \$5,000 worth of antifreeze because the labels were in English only. A food importer -- B.L. Marks, of Thornhill, Ont. -- told the Canadian Federation of Independent Business that "a large part of our products will disappear from the market."

Festacolour '75 attendance down due to the weather

Edward J. Gyurki, Fiddling Champion made a big hit with his audience who were in attendance at the Festacolour '75 Show and Dance held at the Haliburton Arena on Saturday night.

The rain and cloudy weather we experienced here in Haliburton on Saturday had a direct bearing on Festacolour '75. Although people showed up by the hundreds for the many activities that were on tap we must admit that attendance at the various events was down considerably from the previous two years.

There is an old saying that rain or shine the show must go on and at 2 p.m. the big day was kicked off with a parade from the Haliburton Highlands Secondary School featuring the Haliburton Legion Pipe band and the Pipes and drums from Lindsay. The bands put on a colourful show parading from the high school to the fairgrounds where they put on a Massed Pipes and Drums Display.

The Beef Bar-B-Que which intended to be outside had to be moved into the arena when the rains came. The afternoon Beer Garden was also moved inside the arena with entertainment being furnished by "The Strollers".

For some unknown reason the attendance at the Horse Drawing Contest held under the lights at the fairgrounds in the evening was down 50 per cent from the previous year.

A crowd of nearly 700 people turned up in the evening for the show and dance in the arena which featured Gordie Tapp of "Hee Haw fame" along with Peter Randell and his band and the Laverne Country Dancers. Special feature was Ed Gyurki, Fiddling Champion.

Horse Drawing Contest

The following are the winners of the Horse Drawing Contest held on Saturday evening last at Festacolour '75 held at Haliburton.

Light Horse Draw

- 1st. Alex Little - Minden
- 2nd. Murray Cowen - Haliburton
- 3rd. Grant Quinn - Norland
- 4th Jim Chynoweth - Norland

Heavy Horse Draw

- 1st Mac McGillvray - R.R. 3, Bancroft
- 2nd. Ingram Wessell - Norland
- 3rd. LeRoy Nesbitt - Minden
- 4th Jack Batty - Coboconk

The Haliburton Legion Pipe Band and the Pipes and Drums from Lindsay joined forces on Saturday afternoon and are shown marching up Highland Street to the Haliburton Fairgrounds.

Headliner Gordie Tapp of "Hee Haw" fame is shown with one of the Laverne Country Dancers on stage at the Haliburton Arena on Saturday night at Festacolour '75.

Preserved trading post found in the North

TORONTO -- An Ontario Government archaeological survey team has located, with the help of local residents, an almost completely undisturbed trading-post fortress near Fort Severn, the most remote northern settlement in Ontario.

Culture and Recreation Minister Robert Welch said he is moving with The Ontario Heritage Foundation to have this unique discovery protected under The Ontario Heritage Act, immediately.

The minister said the fort's preservation was due to many lucky factors, including the low acidity of the soil, the fact that the ground is frozen solid for most of the year, and that it was never built over by succeeding settlers.

Its remote location in the far north of the province has saved it from souvenir hunters, and its unusual location back from the river, probably for reasons of defense, has saved it from erosion or flooding which

was the usual fate of most old French structures and many posts of the succeeding Hudson's Bay Company period.

Dating from 1690, the wooden structure is approximately 70 feet square, surrounded by a stockade with four bastions. It is believed to be Ste. Therese which was recorded in early Hudson's Bay Company records only as a rumour. This fortress was intended as part of a campaign by the French to drive the English from Hudson Bay.

The fort was sacked by starving Indians a few years after its construction. It was finally overrun by the English who appear to have built a small structure beside it which was soon abandoned in favour of the present site at Fort Severn, a few miles away on Hudson Bay, 1,000 miles north of Toronto.

The fort was located by Donald MacLeod, Supervisor of Archaeological Research,

Ministry of Culture and Recreation, John Pollock, a Northern representative of the ministry, Peter Such, co-ordinator of Canadian Studies at York University, and Jack Stony of the Fort Severn Treaty Nine band.

The site was originally brought to the attention of government archaeologists by the native people of the community who will be co-operating with the ministry in any future plans for the protection, exploration and management of the site.

Mr. Welch said his staff believes this discovery will inspire years of research by archivists, historians and archaeologists and will yield many clues about the relations of the Indian and European cultures engaged in the enterprise 300 years ago. A rich and exciting saga about the very foundation of Canada's distinctive multi-cultural heritage lies preserved in fertile deposits in the sub-arctic soil of Fort Severn.

Haliburton Chamber of Commerce news

Did you know you live in "Getaway Country?" Well, you do. That's the theme of the new promotion from Central Ontario Travel Association. From Toronto to Kingston, Lake Ontario to Algonquin Park is all "Getaway Country." Advertising is being put forth through the newspapers, radios, posters and an attractive brochure. The campaign has just started and inquiries are already coming in from people wanted to get away. Many are requesting information on any planned activities in our area. We are telling them all about the ones we know about - but if you know of one we should be telling them about let us know.

Bob Jennings tells me the Snowmobilers are getting ready for another season and they will be holding a membership meeting at the Legion on Sunday, October 12th from 2 to 4 in the afternoon. If you haven't joined this active group yet, why not go to the meeting and meet all the folks. I'm sure you will want to join when you do.

We are pleased to say we have two more families moving into our business community. Dick and Carole McLean have just purchased Koshlong Marina on Koshlong Lake near Donald. Dick is from Oshawa and has been a regular curler in our annual Skyline Bonspiel. Looks like this year we will have him curling against his old crew. Dick and Carole hope to have a coffee shop going this winter for snowmobilers up in that neck of the woods.

George and Mary Wilson have just purchased Twin Rocks Resort on Kushog Lake from Earl Langdon. This is a cottage and trailer park resort on the Buckslide Road. George and Mary are moving here from Pickering, and are looking forward very much to joining the community.

We wish both couples much success and we know you will all make them welcome.

Johnston-Collins wedding

On Saturday, August 2nd at 4 o'clock in the West Guilford Brethern Chapel, Rev. Stuart Wilson officiated at the marriage of Linday Jane, daughter of Mrs. Marion Johnston of West Guilford; and Lloyd Collins, son of Mr. & Mrs. Stanley Collins of Petites Newfound-

land.

The bride was given in marriage by her brother George Johnston of Oshawa. Her attendants were the brides' sister Eleanor Lubbelinkhof of R.R. #1, Port Sydney as Matron of Honour, Wendy Sibley of Tory Hill, Debbie Casey of Carnarvon

and Cathy Peters of Eagle Lake. Best man was Leonard Brooks of Toronto, ushers were the grooms brother Harold Collins of Ottawa the brides' brothers Nelson Johnston and Raymond Johnston.

Special attendants were the brides' niece and nephew

as flower girl and ring bearer, Tammy Lynn Johnston and Christopher Lubbelinkhof.

The bride wore a short sleeve empire waist gown of white satin and lace with detachable train and shoulder length veil, and she carried a bouquet of red roses, white spider mums and babys breath.

The attendants dresses were empire waists, with cap sleeves and low neckline made of rose patterned blue lace over satin lining and trimmed with blue velvet ribbon. They wore flowers in their hair and carried bouquets of white and pink carnations and babys breath.

The flower girl was dressed in a floor length white gown of crimpelene, trimmed with blue velvet and carried a rose nosegay. The ring bearer wore a light blue suit with a rose boutonniere to match the best man and ushers light blue tuxidos.

The wedding reception was held at West Guilford Community Centre with Mr. Daniel Johnston as Master of Ceremonies. There were

telegrams of congratulations from the grooms parents, relatives and friends in Newfoundland. A dance was held following the reception with the band "Jean and the

Log Cabin Boys" of Brohlyn. A large crowd attended.

The happy couple will be living in Toronto following their honeymoon in Newfoundland.

Lloyd Robertson hosts celebrities

For several months nearly 3000 entertainers have been competing for the North Ontario Recording Awards (NORA). From this extensive and often surprising competition 11 finalists await the naming of four winners of professional recording contracts in a gala Radio 740 special, Saturday, October 4 at 10 p.m.

Lloyd Robertson hosts the broadcast live in front of a celebrity studded audience at Pinewood Park Motor Inn, North Bay.

Program Co-ordinator Bob Burt logged over 6000 miles of travel recording 12½ miles of audio tape: performances by prisoners, housewives, businessmen, professional and semi-professional entertainers. One contestant travelled 300 miles for one 2½ minute recording session. The NORA festival has been an important event for talented residents of Ontario's vast northland.

The competition categories include classical-vocal and instrumental; contemporary-male, female and group; country-male, female and group; folk-male, female and group.

Then 33 finalists were chosen from 170 qualifiers by judges Keith Duncan and Richard Coulter of CBC Radio Music in co-operation with Northern Ontario representatives. Another panel of judges selected 11 winners of the NORA Festival.

The drama of the October 4 special centres around the awarding of 4 recording contracts - one per category.

Major conferences, big exhibits at Mining Exhibit

TORONTO -- Government departments, industry associations and major equipment manufacturers have planned an expanded program of seminars and conferences in conjunction with the second Canadian Mining and Aggregate Equipment Exhibition in the Automotive Building, Exhibition Park, Toronto, October 8 to 10, James T.S. Creighton, show manager, has announced.

Among groups planning special events to coincide with the show are the Federal Department of Energy, Mines and Resources, Ontario Ministry of Natural Resources, Aggregate Producers Association of Canada and the Purchasing Management Association of Canada.

"In addition, there will be a program of technical seminars and workshops presented by major suppliers who are exhibiting in this year's show," Mr. Creighton said. "These workshops are planned as practical, in-depth sessions dealing with the latest developments in equipment and technology for the mining and aggregate industries".

More than 40 exhibitors have confirmed titles and subject matter of papers they will present at the workshop sessions.

Among show highlights:

- Wednesday, October 8, has been designated as Aggregate Day at the show when the Aggregate Producers Association of

Ontario will hold a luncheon with a special guest speaker.

- The Ontario Ministry of Natural Resources will hold a seminar at 11 a.m. Thursday, October 9, to discuss Ontario experience with long duration breathing apparatus for fighting mine fires.

- The Federal Department of Energy, Mines & Resources is planning a seminar on underground communications and equipment methods to be held at the show at 2 p.m. Thursday, October 9.

- The Purchasing Management Association of Canada will hold a meeting at 11 a.m. Friday, October 10, to discuss purchasing ethics.

Papers to be presented by exhibitors cover a wide range of topics of interest to management, engineering and operating executives in the mining and aggregate industries. Among them are papers on such subjects as mixing and pelletizing, boom type continuous miners,

heavy haulers for the mining industry and use of cage mills as secondary crushers.

Seminars and conferences will be held in conjunction with exhibits of latest machinery, equipment and supplies for the mining and aggregate industries from more than 150 manufacturers and distributors. In addition to indoor exhibits, a huge outdoor area right across the road from the show building will be used for displays of heavy equipment.

Show hours are 10 a.m. to 6 p.m. Wednesday and Thursday, Oct. 8 and 9; 10 a.m. to 5 p.m. Friday, Oct. 10.

Canadian Mining and Aggregate Equipment Exhibition is produced by Southex Exhibitions, a division of Southam Business Publications Ltd., Toronto, organizers of more than 20 major trade and consumer shows in cities across Canada.

Trent University

PETERBOROUGH - Two Canadians well-known in the fields of folklore and education will receive honorary degrees at the fall convocation of Trent University on October 25.

They are: Edith M.F.

Fowke, Folklorist, broadcaster and author, who will receive a Doctor of Letters, and

James Robbins Kidd, an internationally-noted pioneer in the development of adult education programs, who will receive a Doctor of Laws.

About 125 undergraduate degrees will be conferred on Trent students at the ceremony.

Mrs. Fowke, a native of Saskatchewan, is the author of a number of collections of folk songs of Canada and its provinces. Extensive collec-

tions of taped folk music which she made are held both in the National Museum of Canada and in the U.S. Library of Congress.

Her book "Sally Go Round the Sun" in 1970 won a medal as the Canadian Library Association's book of the year for children.

As a broadcaster she has prepared and written scripts for many CBC radio series from 1950 to the present, and has been a frequent contributor to other series. Since 1971, Mrs. Fowke has been a

member of the faculty of York University, where she teaches courses in folklore. She received her B.A. and M.A. from the University of Saskatchewan.

Professor Kidd, also born in Saskatchewan, was among the pioneer advocates of the use of television in adult education. Founding chairman in 1966 of the adult education department at the Ontario Institute for Studies in Education, he continues as a member of its faculty.

He is secretary-general of

the International Council for Adult Education and the author of a variety of publications in that field. Professor Kidd has also served as director and associate director of the Canadian Association for Adult Education, secretary-treasurer of the Humanities Research Council of Canada and the Social Science Council of Canada.

Professor Kidd was educated at Sir George Williams, McGill and Columbia Universities.

Township of Emily receives grant under the Home Renewal Program

Grants for the implementation of the Ontario Home Renewal Program (OHRP) have been allocated to several additional Ontario municipalities, including the Township of Emily, Housing Minister, Donald R. Irvine announced today.

OHRP provides her capita grants to Ontario municipalities to administer directly as loans to homeowner occupants to repair their houses to an acceptable municipal minimum standard.

Emily has been allocated \$8,000 at this time, Mr. Irvine said, which represents approximately 21 per cent of the total 1975-76 funding designated under OHRP for the municipality.

The prime objective of the program is the correction of faulty structural and sanitary conditions and the upgrading of plumbing, heating and electrical systems of the owner occupant's home.

"OHRP is directly oriented to low and moderate income families, with a maximum annual income of \$12,500", Mr. Irvine said. "Emily is to be congratulated for its initiative in moving quickly to implement this program, which ensures the continued usefulness of

needed existing housing."

The maximum amount of an OHRP loan, as determined by the local municipality, is \$7,500, less any funding from other home renewal programs. The municipality is also responsible for determining the rate of interest charged on the loan, from zero to eight per cent, and

what portion of the loan will be "forgiven", and therefore need not be paid back.

OHRP extends home renewal possibilities to owner occupants in any municipality in Ontario, urban or rural, which has adopted either a minimum housing standards by-law or a resolution setting such standards.

Haliburton canoe tripper makes safari to Far North

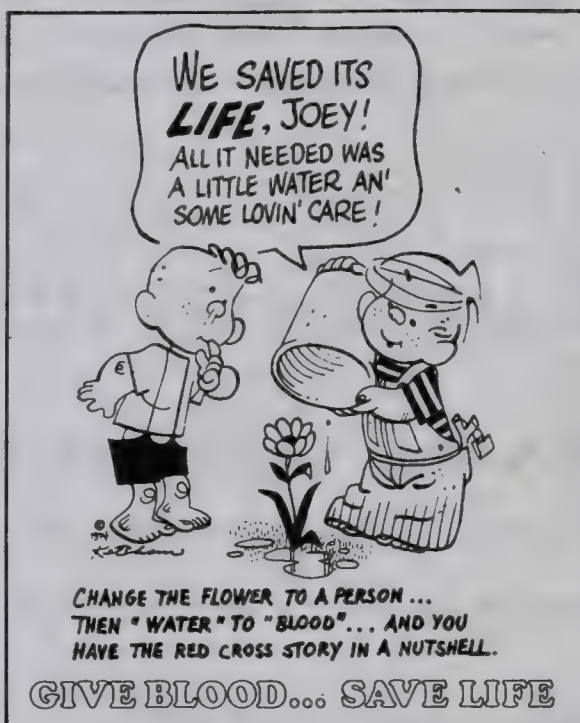

In mid-July Haliburton's lone canoe tripper embarked on his fourth annual safari to the Far North. From Labrador City he followed the Moisi and Caniapistau rivers to the George River community on Ungava Bay and then to Fort Chimo where he took time to write a most interesting letter to his parents at Maple Lake. At the time of writing Bob relates that a search party had been engaged to follow the trail of a young man, his wife and their dog who left from Fort Chimo and have never been heard from since. Two voyageurs came across an abandoned site where it is believed the woman had scratched out a message on a large wooden Hydro spool using lipstick to spell out that her husband had died and she and the dog had continued on with the hope of reaching Fort MacKenzie. A friend who had journeyed to Labrador to join the search party found what appeared to be the bones of a small animal near a spot where she had made a fire and it is thought she ate her dog in order to survive. The Toronto Star carries an account of this incident in the September 26th issue. As Bob explains, "It's a case of studying and planning for weeks before you even get to the preparatory stage". Due to the

rugged and mountainous terrain there were days when he could only make two or three miles over bog, rocky canyons and cascading waters. Portaging in this kind of country requires sure footedness, endurance and determination.

The history of Labrador has many accounts of people who met their demise by venturing into the uncharted hinterland forgetting that heavy ore deposits quite

often render the compass completely useless.

Bob expected to be back in Labrador City about October 1st and home before Christmas. Blueberries, Rainbow trout and Arctic Char are pretty good fare but Bob longs for a good home cooked meal and, most of all, his friends back in Haliburton. His pictures and account of this trip will be most interesting.

CONTINUING EDUCATION DIVISION

Evening Courses

WEAVING

This course is designed for beginner and intermediate weavers. Students will learn basic weaving and the set up of the loom. Floor looms will be provided for students.

Instructor: Margot Watkinson has taught and for the past several years has had a weaving shop in the Haliburton area.

TIME: Tuesday's October 21 - Dec. 9 - 7:30 - 10:00 P.M.

FEE: \$25.00 plus materials which will be available at the school.

LOCATION: Lakeview School

MACRAME

Two Workshops will be given for beginners and intermediate students. The workshop will include basic knots and techniques for the beginner and instruction in design application for the more advanced student.

INSTRUCTOR: Mary Wallace is now living in Haliburton and has organized and taught workshops for the Glenhurst Arts Council in Brantford.

TIME: Oct. 21, 22 & 23 - 1:00 - 4:00 P.M.

Nov. 18, 19 & 20 - 7:00 - 10:00 P.M.

FEE: \$10.00 plus materials which will be available from the school.

LOCATION: Lakeview School

QUILTING LECTURE AND WORKSHOP

This day will include an exhibition of 8 quilts, a slide presentation and lecture by Kim Ondaatje of The Art Gallery of Ontario in the morning and in the afternoon for those who wish to stay there will be a workshop in basic quilting.

TIME: Dec. 4 - exhibition and lecture 9:30 - 11:30

Workshop - 11:00 - 4:00

FEE \$3.00

LOCATION - Lakeview School

SCOTTISH COUNTRY DANCING

This course will teach basic country dances such as the Gay Gordons, Strip the Willow and Dashing White Sargent. NOTE: This is not Highland Dancing.

INSTRUCTOR: Jim Thompson of Kinmount is Canada's first Professional Bagpiper and has been in the 4th Highlanders and The Toronto Scottish Regiment.

TIME: Wednesday's Oct. 22 - Dec. 10 - 8:00 - 10:00 P.M.

FEE: \$20.00

LOCATION: Lakeview School

LECTURE SERIES

A series of lectures will be given in November by local Professionals on the Topics listed below

Nov. 3 - Dave Bishop - Real Estate & Financing

Nov. 10 - Don Finn - Estates and Wills

Nov. 17 - Ted Gardiner - Family Law

Nov. 24 - Norm Healy - Life Insurance

TIME - 7:30 - 9:00 P.M. Mondays Nov. 3 - 24

FEE: \$10.00

LOCATION: Lakeview School

UPHOLSTERY

This course will teach repair, stripping and reupholstering of Furniture. Students will also learn measuring and sewing of upholstery material.

INSTRUCTOR: Harry Stephaniuk who is an upholsterer in Bancroft.

TIME: 7:00 P.M. - 10:00 P.M.

Thursdays - Oct. 22 - Dec. 4

FEE: \$20.00 plus materials which may be purchased from the instructor.

For information of Types of Furniture to bring and tools required please call Haliburton School of Fine Arts Office 457-1680.

LOCATION: Lakeview School

INFORMATION & REGISTRATION

Telephone or drop into the Haliburton School of Fine Arts office at Lakeview School-weekdays 9:00 a.m. - 4:30 p.m. or call 457-1680.

Coal remains essential for electric power

Despite Ontario's emphasis on the future use of uranium, coal will remain a significant and increasingly important fuel for the generation of electricity, Milan Nastich, Ontario Hydro Vice-President Resources, said today.

Mr. Nastich told the 27th Canadian Conference on Coal, a national assembly sponsored by the Coal Association of Canada, Meeting in Vancouver, "Demand for electricity continues to grow, perhaps at a slower rate, and this demand will not be met solely from hydraulic and nuclear sources."

Fossil fuels will be required to help fill the need for power and "this means coal." Oil and gas are scarce, he said, needed for other uses and are expensive.

While traditionally, Ontario Hydro has relied on coal from the Appalachian region of the United States, Hydro "is seeking to diversify its sources of coal supply by obtaining a portion of its projected needs from Western Canada while continuing and somewhat expanding the supply from the United States."

Meeting Ontario's needs provides the West with a long term market, a market that is not "boom or bust", and one that is likely to grow in a controlled manner.

"We believe that establishment of a basic movement of coal from Western

Canada to the Great Lakes is not just a benefit to Ontario. It is also in the best interests of the Western provinces and Canada as a whole."

Coal will continue to play an important and expanding role in electrical generation in Canada provided its economic position can be maintained.

Mr. Nastich said to bring coal from Western Canada into Ontario will require development of an elaborate transportation system. Rail facilities must be upgraded, large unit trains to handle the required volume of coal must be acquired, a storage

and transfer terminal at Thunder Bay must be constructed and additional lake shipping capacity must be provided.

"Future advancements to minimize the cost of extraction and transportation would have a major effect on the extent of the increase in the demand for coal."

Thus it should be possible for the mines to develop as sound business enterprises, paying proper heed to the environmental requirements, offering good employment opportunities and supporting stable communities.

In a broader context, a new

trade link across Canada will come into being. Other potential markets will be opened up for metallurgical as well as thermal coal from Western Canada. A potential growth in foreign trade and dependence will be replaced by domestic growth. In total, all segments of the Canadian economy will be strengthened, Mr. Nastich said.

"An overall program, which is what is needed, however, requires co-operation and concerted action by all the participants, governments, producers, transportation companies and consumers."

The 1976 Fords and Mercurys are at your dealers now!

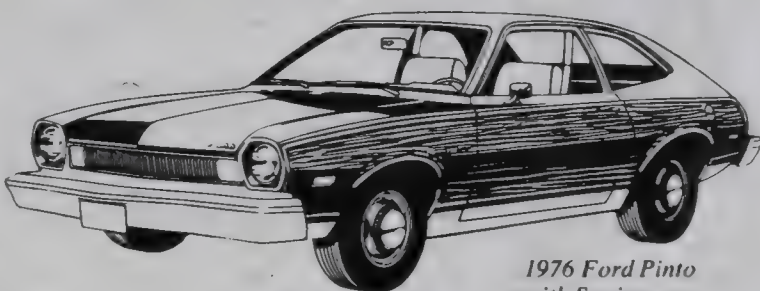

We've built in fuel economy, value, performance, and fuel choice - and we've done it all with style.

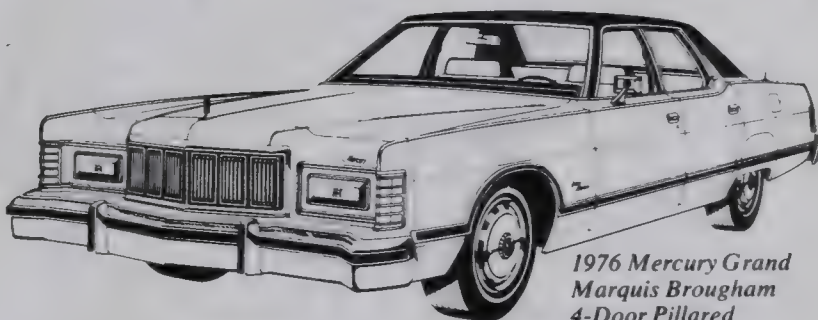

1976 Ford LTD

1976 Mercury Comet
2-Door Sedan

1976 Ford Pinto
with Squire
Woodgrain Option

1976 Mercury Grand
Marquis Brougham
4-Door Pillared
Hardtop

The exciting new 1976 Fords and Mercurys are here! The cars with some very exciting news.

First, the '76's are done up in style. Simply beautiful. With glamorous new exterior colours and super-looking new interiors in choices of fabrics and vinyls. And a terrific list of options including zippy tutone colour schemes, styled-steel wheels, and a wide range of stylish seating choices like Twin Comfort Lounge Seats, Flight bench seats, and front bucket seats. Be sure to ask about the Pinto 3-Door Runabout with Squire Woodgrain Option, the proven, dependable Comet, or the ride-improved Granada.

They're a knockout!

Visit your Ford/Mercury dealer and have him show you some of the stylish new '76's today.

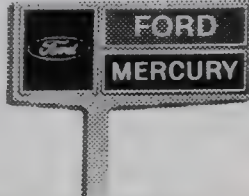

Ford and Mercury carlines achieved an average fuel

economy improvement of 25% over last year... based on official U.S. EPA simulated metro/highway dynamometer tests. United States Environmental Protection Agency standardized test results have been, and are being used by automotive manufacturers for fuel economy statements. Engines in Ford of Canada carlines have been refined to give better fuel economy and improved driveability in terms of easier starting, better stop-and-go response, and smoother acceleration.

FUEL CHOICE:

We've got it! There are optional lower-cost engines designed to run on lower-priced regular gasoline that's readily available anywhere.

See all the beautiful new mileage-improved '76's at your Ford/Mercury dealer.

*Certain items mentioned or illustrated are optional at additional cost.

Township of Carden gets grant under the OHRP

Grants for the implementation of the Ontario Home Renewal Program (OHRP) have been allocated to several additional Ontario municipalities, including the Township of Carden, Housing Minister Donald R. Irvine announced today.

Carden has been allocated \$29,000 at this time. Mr. Irvine said, which represents the total 1975-76 funding designated under OHRP for the municipality.

The prime objective of the program is the correction of faulty structural and sanitary conditions and the upgrading of plumbing, heating and electrical systems of the owner occupant's home.

"OHRP is directly oriented to low and moderate income families, with a maximum annual income of \$12,500," Mr. Irvine said. "Carden is to be congratulated for its initiative in moving quickly to implement this program, which ensures the continued usefulness of needed existing housing."

The maximum amount of an OHRP loan, as determined by the local municipality, is \$7,500, less any funding from other home renewal programs. The municipality is also responsible for determining the rate of interest charged on the loan, from zero to eight per cent, and what portion of the loan will be "forgiven", and therefore need not be paid back.

OHRP extends home renewal possibilities to owner occupants in any municipality in Ontario, urban or rural, which has adopted either a minimum housing standards by-law or a resolution setting such standards.

Parents should get involved in education, minister says

The biggest challenge facing education today is getting parents involved in the schools in a meaningful way, Education Minister Thomas Wells said last week.

Speaking at the Canadian Education Association's annual meeting in Toronto, Mr. Wells said that he sensed an intense need to involve the public in what is going on in the schools.

"Lack of involvement implies lack of communication

and lack of communication brings lack of knowledge, misunderstanding and mistrust. The misunderstanding and mistrust gradually erodes the base of popular support on which the viability of any public institution, particularly schools, depend."

Mr. Wells said the need of meaningful involvement arises because of an organized demand for the formal sharing of power with community or parental groups

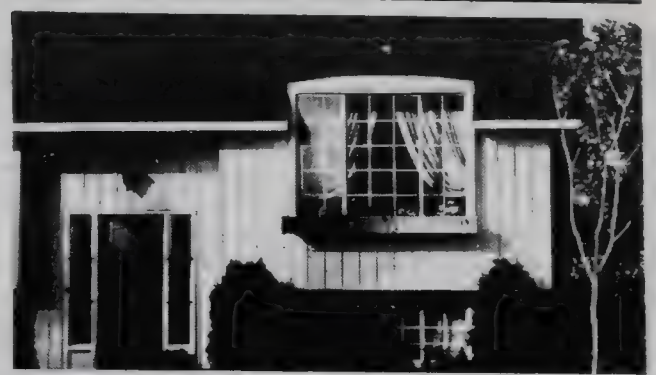

but that most often it comes from a great many ordinary parents who just don't understand what is going on in the schools.

Your child comes home from her ungraded junior division classroom with a report that says, "Mary's progress in language arts is satisfactory for her stage of development." You are apt to assume that everything is all right. You may think your own parents had a better picture of how you were doing from your report card of 30 years ago which said, in Grade 5, "Spelling 67, English Grammar and Composition 70, English Literature 73," and gave the class averages in each. However, you assume, not without a certain uneasiness, that things have changed and that the new system is probably better for the kids."

"Two years later, the principal calls you in. Mary's progress has been quite satisfactory for her stage of development, but he thinks

more could be done for her by a transfer to a special vocational school than by remaining where she is for another year, and going on to a regular secondary school. At this point you are apt to feel that you have been the victim of double-talk. Overnight you are transformed from a passive supporter to a resentful critic of the system. Involvement of parents in the schools in meaningful ways will prevent these types of scenarios from taking place."

Curriculum committees composed of parents and teachers, school board advisory committees of interested citizens, and the more active parent-teacher associations are all positive moves in bringing about direct parental involvement in the schools. However, none of them are a substitute for a policy of open classroom doors and open and complete communication with the people of the community, Mr. Wells said.

Three ways you can save money with Alcan Siding

1. Cuts maintenance way down — saves you paint and labour, money and time.
2. Adds insulation, cuts fuel bills.
3. Looks good, adds resale value. And it's backed by a homeowner's 20-year, transferable, pro-rated guarantee. Ask your Alcan Authorized Dealer for a free brochure with all the facts.

News from Minden

All their friends send good wishes to Mrs. Gordon MacMinn at Ross Memorial and to Mrs. H. Farndon.

Several weddings over the weekend with congratulations going to Mr. and Mrs. Bradley Gilbert (nee Sherry Anderson) and to Mr. and Mrs. Neil Dennison (nee Kerry Delaney).

Peggy and Sid Brown are home again after a flight to Calgary, a bus trip of the West to Vancouver and Victoria, on by air to Prince George, then spent 5 days with their son Wayne Brown a teacher at Lakes District High School, Burns Lake, B.C. and home by air.

Another lucky lady at Rotary Bingo last Thursday night won the second Snowball of \$207.00 in the 23rd number called. Congratulations to her. Correction from last week the first snowball winning was \$115.00.

Della Griffin, Jack Johnson and Mr. and Mrs. Don Wright of Toronto had an enjoyable motor trip to

Victoria B.C. and Seattle Washington.

Mr. and Mrs. David Austen and children from North Bay spent the weekend with his parents Mr. and Mrs. Hugh Austen and attended the Wedding Dance of Mr. and Mrs. Neil Dennison.

Lil and Charles Stevens are leaving this week to take up residence at the home of Mr. and Mrs. Cliff Skelding, their daughter, at Whitby.

Belated birthday wishes to these people at Hyland Crest having birthdays in September, Isabella Eastman, Elma Welch and Frank Billings.

Sincere sympathy to the families and friends of the late Garnet Stevenson and Fred Allen Moore whose funerals were since last week.

Lil and Charlie Stevens were pleasantly surprised by a Farewell Party at the Ewings on Sunday evening when friends and neighbours gathered to wish them farewell.

If you are 65 or older, you are probably entitled to Ontario's new Senior Citizens' Privilege Card.

These are the privileges Ontario offers you.

There's a new Ontario Senior Citizens' Privilege Card, which has been sent to 750,000 Ontario residents aged 65 and older. It replaces the monthly drug benefit card issued by the Ministry of Health.

In addition to free OHIP services, the card provides more than 1500 free prescription drugs to all seniors receiving federal Old Age Security or Ontario Guaranteed Annual Income System (GAINS) cheques.

The new Privilege Card offers identification for:

- Free admission to all Ontario provincial parks.
- Free or reduced admission to many historical, cultural and recreational sites, such as Ontario Place, the Ontario Science Centre, Upper Canada Village and the Royal Botanical Gardens.

- Special senior citizens discounts at many business establishments.
- Special senior citizens rates on certain public transit systems. (Check with your local transit system to see if it offers these.)
- Participation in community activities and centres for senior citizens.

If you are presently receiving your monthly drug benefit card, you should receive your Senior Citizens' Privilege Card automatically. Sign it immediately. Without your signature, you cannot use the card.

If you are 65 or older, and have lived in Ontario for 12 months or more but have not received your card by September 30, write to:

Ontario Senior Citizens' Privilege Card (Drug Benefit)
Queen's Park
Toronto, Ontario M7A 2S3

If you are 65 or older, but have lived in Ontario for less than 12 months, you may apply for a temporary Privilege Card. It will entitle you to all privileges except drug benefit. Write to:

The Algonquin Park Master Plan discussed at Bancroft meeting

After due consideration of the Algonquin Park Master Plan it would be our opinion that Algonquin Park will still receive very little use except in the area where the major traffic volume will have access.

As you are well aware a portion of the park is within the boundaries of Haliburton County. Of the many miles of park boundary there is no access from Haliburton County to the park. You propose interior access points in the future designated as Numbers 17 and 18. These access points will still only be for those with a canoe.

When you consider that the area of the park directly adjacent to Haliburton County will not be accessible for most, it is quite evident that the new Master Plan will do nothing to help the

economic problems of our county.

As indicated in your master plan and quote "Patented land shall be acquired and added as needed", you indicate that there is a possibility of the adjoining municipalities losing revenue producing properties. May we remind you that there is already more than 300,000 acres of crown land presently producing little or no revenue within our county.

If one was to study the land disposition map the following areas could easily be used for satellite parks without the acquisition of further patented land.

(1) Anson Township and Hindon Township - more than 60,000 acres with many lakes and already serviced by county road 1, Hwy 35 and a municipal road known as the

Scotch Line.

(2) Snowdon and Glamorgan Townships - A large block of crown land serviced by Hwy 503 and a municipal road known as the Irondale Road.

(3) Monmouth and Cardiff Townships - A large block of land with direct access frontage to Hwy 121, Hwy 28 and a municipal road.

(4) Stanhope, Sherbourne, Livingston and MClintock Townships - Thousands of acres serviced by Hwy 35,

Hwy 60 and municipal roads.

These areas at the present time make it virtually impossible for these municipalities to accomplish a sound tax base.

This commission would respectfully submit the following:

(1) That direct access to Algonquin Provincial Park be made available from within our county.

(2) That the crown land be used to its fullest extent by

the public at large before any patented land is acquired.

(3) That the proper harvesting of the forest resources

within the park be continued.

(4) That Haliburton County have a representative on the Provincial Parks Planning Council.

Respectfully submitted
Haliburton County Economic Development Commission.

OAK STREET - HALIBURTON 457-2912

Man charged with indecent assault

The Ontario Provincial Police Minden Detachment report the following activity for the period of September 22 to 28, 1975: 6 motor vehicle collisions and 74 general occurrences with one compassionate message being given. These occurrences were investigated by Minden O.P.P. Detachment personnel and as a result four charges were laid under The Liquor Control Act, two persons charged with impaired driving and 15 charges of break and enter levied upon completion of the investigations.

As a result of an incident which occurred on Tuesday, September 23, 1975, in the Haliburton area a charge of indecent assault on a female has been laid against 63 year old George Edward Walters of Haliburton. The female is a juvenile, age four. Upon further investigation by Ontario Provincial Police Constable W.F. Devereaux of the

Minden Detachment and as a result of the nature of this charge no other information was available to the press at this time.

Mr. Emmett Madill, age 41, of Haliburton reported on Tuesday, September 23rd, that his truck camper had been broken into and items valued at \$75.00 had been stolen. The property was recovered as a result of an investigation by Constable M.J. Maher of the Minden Detachment of Ontario Provincial Police and William Gary Holland, age 17, of Haliburton has been charged with break enter and theft.

A two-car accident occurred in the Haliburton area on Highway 121 on Wednesday, September 24, 1975, at 7:05 p.m. when a vehicle driven by Ethel M. Brennan, age 70, of Haliburton attempted to back out of a private laneway and was in collision with a car driven by 44 year

old Mary M. Briggs of R.R. 1, Minden. Mrs. Brennan's vision was obstructed by a vehicle parked on the roadside and her car backed out into the path of the east-bound Briggs automobile, and as a result of the mishap Mary Briggs complained of minor pains. The accident was investigated by Ontario Provincial Police Constable W.G. Popp of the Minden Detachment and he estimated damage to the Briggs car at \$300. and \$800. to the Brennan car.

Charged with careless driving and failure to notify a change in ownership is Larry Hewitt, age 21, of R.R. 2, Minden, after a dump truck he was driving southbound on Highway 35 just south of the Twelve Mile Lake bridge travelled up a rock cut on the east side of the highway and then rolled back down, coming to rest upside down. The dump truck sustained an

estimated \$6000. in damage and the driver was treated for cuts at the Minden Red Cross Hospital after the accident which occurred at 6:45 a.m. last Thursday. Constable W.A.R. Buchanan of the Minden O.P.P. Detachment was the investigating officer.

Rodney A. Stock, 24, of R.R. 2, Haliburton, was travelling eastbound on Highway 121 east of the Kashagawigamog Lake Road at 5:23 p.m. on Thursday last when a 40-foot extension ladder fell from his vehicle and struck a westbound vehicle driven by 60-year old Morris B. Henderson of Minden. Damage was estimated at \$700. to the Henderson vehicle and a charge of having an insecure load has been laid against Mr. Stock by O.P.P. Constable T.R. Brown of the Minden Detachment who investigated the mishap.

The Reeve's Corner by Reg Booth

We recently attended at the International Canadian and WORLD Plowing Match, and were greatly impressed by the immensity of the project, and by the dedication of those giving of their time to make it a success. Plowmen from a CANADIAN organization, and volunteers from the Oshawa area, who were helping to SELL CANADA.

At the opening luncheon it was announced at 1:00 p.m. that the Prime Minister had refused at the last minute to open the Show. The opening was at 2 p.m. and the C.B.C. cameras were in place with speakers, crowds and all the rest of the excitement that makes a big show in readiness. When opening time came, Mr. Cafik (Federal Member) advanced to the microphone to advise that although the Prime Minister had been on the plane with him, he had refused to come to, or participate in the WORLD plowing match because he had learned that two exhibitors were in attendance from Rhodesia. A WORLD Plowing Match in CANADA, and Canada without a leader to open the Show!!!

The writer mixed with the crowd, and it was very much in evidence that many who had previously been of the opinion that Canada had a leader, had just found out that we did not.

Written in the interests of a BIGGER CANADA.

NIGHT CLASSES

Haliburton Highlands Secondary School

The Haliburton County Board of Education will conduct evening classes for adults in all or some of the following subjects provided a sufficient number of candidates apply and instructors are available. The Principal reserves the right to combine or cancel courses if an insufficient number apply or if a satisfactory teacher cannot be obtained. Credit courses leading to the Secondary School Graduation Diploma may be offered if 15 people apply.

(a) Any course for which 15 people register provided a teacher is available.

- (b)
1. Music Appreciation
 2. Conversational French
 3. Auto Mechanics
 4. First Aid
 5. Electricity for Beginners
 6. Construction Drawing and Blueprint Reading
 7. Sewing and Dressmaking
 8. Driver Education
 9. Keep Fit (Male)(Female)
 10. Typing
 11. Forkner Shorthand
 12. Personal Finance (10 weeks only)

If enough people are interested, the Typing and Forkner Shorthand courses could be taught consecutively on the same night. Interested people could indicate this choice by marking the box at the bottom of the Registration Form.

The Keep Fit classes may be offered at either Haliburton or Minden, or both. Please indicate your choice on the Registration Form below.

Individuals wishing to enroll in one of the preceding courses should complete the form below and return it to Haliburton Highlands Secondary School, Box 390, Attention Night School, by October 14, 1975.

Courses will be no less than 10 weeks in duration and will be held on evenings desirable to the majority registering for a class.

A fee of \$10.00 is charged for each course taken except Driver Education. The fee for Driver Education will be \$25.00. This fee will be collected on the first night of instruction. Fees shall be refunded if an insufficient number enroll for the course. There may be an additional fee charged in some courses if special texts or equipment is required.

Unless fifteen candidates register, a course cannot be offered. Individuals will be notified as courses become filled and available. The probable date of commencement of Night School courses will be October 14, 1975.

Please Complete This Registration Form and
Mail to BOX 390, HALIBURTON,

Peterboro man charged under the UIC Act

A Peterborough man was fined \$300.00 or 10 days consecutive in jail for each offence if not paid within 90 days.

Douglas Outwater appeared before Judge G.F.W. Inrig in Lindsay on the 24th of September to answer charges

under Regulation 25(a), 33(3), 36 of the Unemployment Insurance Act for making three false statements to the Commission.

Mr. Outwater indicated to the Commission that he was ready, willing and able to work while incarcerated in

jail from March 11 to April 1, 1975.

Judge Inrig stated to Outwater - "you were either in jail or just released from jail on each occasion and you made these statements

which leaves no doubt in my mind as to your knowledge of each statement."

The UIC discovered Mr. Outwater was making false statements on the 27th August, 1975.

Fall meeting of Women's Institute

September 17th was the first Fall Meeting of another year of the Women's Institute at the home of Mrs. S. Ewing with 23 members and 4 visitors present Mrs. Lyman Cox, 1st Vice President, chaired the meeting in the President's absence. The meeting opened with O Canada, the Mary Stewart Collect followed by the Ode. The Roll Call of exchange of plants or slips gave everyone some items for their windows. Mrs. A. Todd was in charge of the programme and she introduced her speaker Mrs. Sue Ripley. She spoke on Home Care and Physiotherapy for the Haliburton Health Unit, a part of the V.O.N., and told of her visits to people in their homes and their treatment.

The minutes of the June Meeting and an Executive

Meeting were read and signed and correspondence read. Mrs. A. Taylor gave the report and there had been 59 cards sent out since the June Meeting.

The Area Convention will be held in November and representative selected was our President and reservation will be made for her.

Mrs. Todd gave a report on the International Women's Year Programme. on Oct. 22nd at the St. Paul's Parish Hall to which invitations were to be sent to all women's groups in this village. The next meeting will be at the home of Mrs. S. Blears, Oct. 15th at 2 with an invitation to any ladies to come and join our group. The meeting closed with God Save The Queen and the W.I. Grace followed by a social time and delicious lunch.

Signs of Fall

In addition to the normal signs of fall, changing leaves, and dull overcast days, the arrival of Canada Geese at the Upper Canada Wildfowl Sanctuary is a sure indication that summer is over.

The Sanctuary, located 11 miles east of Morrisburg, Ontario on Highway 2, becomes a temporary home for thousands of Canada Geese during their southerly flight to winter feeding grounds in the Chesapeake Bay area.

A feeding program is carried out daily at 2:30 p.m. during the migration period which lasts approximately 8 weeks from late September to late November. The peak migration periods are directly influenced by weather conditions in the far north, and usually occur in the second and third weeks of October. During the feeding periods approximately 100 tons of cob corn are distributed.

An average of 2,000 Geese are fed daily with the occasional day on which the

number will exceed 3,000. The visitor may also see the Snow Geese and on occasion a few Blues, as well as a limited number of ducks including Blacks, Mallards, Teal and Wood ducks.

The Sanctuary area is well signed not only at the entrance off Highway 2 but in the feeding area as well, where a large coloured map will give the visitor an excellent perspective of the size of the Sanctuary.

Adjacent to the feeding area are approximately 4 miles of marked nature trails for the visitors' enjoyment. Bring your camera and spend an enjoyable afternoon.

In The Matter Of: Sections 77, 78 and 80 of The Environmental Protection Act, 1971, as amended,

- and -

In The Matter Of: an appeal dated the 15th day of July 1975 by Stoughton Electric Ltd. from the refusal of the Director dated the 20th day of June, 1975, to issue a permit for the use of a sewage system located on Lot 50, Plan 511, Township of Dudley,

- and -

In The Matter Of: a hearing to be held by the Environmental Appeal Board.

TAKE NOTICE that the Environmental Appeal Board hereby appoints Wednesday, the 22nd day of October, 1975, at 9:30 o'clock in the morning (local time), in the Township of Dysart Municipal Building, Council Chambers, Haliburton, Ontario, for the hearing of this appeal.

AND TAKE NOTICE that the purpose of this hearing is to enable the Board to determine whether it shall confirm, alter or revoke the refusal that is the subject of the hearing.

AND FURTHER TAKE NOTICE that if you do not attend at this hearing, the Environmental Appeal Board may proceed in your absence and you will not be entitled to any further notice in the proceedings.

Dated at Toronto this
22nd day of September, 1975.

T.M. Murphy,
Board Secretary.

LEASING**

VERY LITTLE DOWN WHEN YOU LEASE A NEW CAR FROM US

That's because your deposit on a new lease car can be substantially less than what you'd put down to buy a new car. What's more, you'll never fret over what your lease car is worth at trade-in time because your car will never get too old.

Each monthly leasing payment also covers such costs of enjoying a new car as financing, depreciation, taxes.

There are other solid reasons for leasing a new Chevrolet from us. So, come on in. Let's discuss the lease plan... and that new Chevrolet... that fit your needs.

And your pocketbook.

Gems of Truth

A VIVID PICTURE

One of the characteristics of a good mechanic has always been a sense of achievement and an allowable pride in his work. In this craft as well as many others, the dependable worker wants the work of his hands to be an eloquent testimony of his skill. There were many workman of by-gone days that would have rather gone digging ditches than turn out "sloppy" work.

That state of mind seems to be passing rapidly from the scene in our day and age. Too many workers seem interested only in the pay envelope and not in the quality and quantity of the work they do for that pay. New machines are improperly assembled, faulty parts installed, resulting in early breakdown and the consumer is the scapegoat. An extra cost of paint covers up a multitude of bungling workmanship and the workers seem to have lost the pride of a good craftsman which once made our nation the envy of the world.

Some observers blame all this on the tide of the age, world conditions that have

been caused by wars and other factors. Some accuse labour union practices, others seem to see a "class war" in which such tactics are a deliberate weapon in the hands of the "masses" against their "oppressors and masters". In the resulting confusion many are bewildered and scarcely know how to account for the collapse of confidence in the economy and production lines.

To those who believe in the truth of "Holy Writ" it seems quite clear that "all" the evils of our age stem from one source and that is the present day contempt for the "Word of God". And this loss of faith in the Scriptures cannot be blamed on union officials, communist agitators, or foreign saboteurs, it lies rather at the door of Church leaders and theological seminaries. In a real sense foreign ideology has crept into our midst.

When "higher criticism" began to undermine the confidence in the Bible, that stream of thought soon reached the pews and doubts and bewilderment became the portion of the average man. The "scholars" of the new school soon found their way into the books of learning and a generation of boys and girls grew up without confidence in the authority of the Word of God and chain reaction followed.

Had the admonition of the wise man Solomon continued to be our guide, the outlook of our day would be vastly different. Into what areas of life will his words of "whatsoever thy hand findeth to do, do it with thy might" not apply? Ecclesi-

astes 9:10. Here is the cure for sloppy workmanship, here is a safeguard against all forms of laziness and dishonesty. Here is the formula for increased production and lowered costs, which trouble industrialists are searching for. Why has this rule of life ever been lifted from the eyes of our society? Once it was taught to children as the only way to discharge a duty, or preparation of lessons. Such children grew up to be stable men and women, empire builders, who laid the foundation for a prosperous country. To-day, the average person tries to "get by" and "anything goes" in his mind and conscience.

What else can be expected when mis-educated teachers laugh at the Bible in

classrooms, sneer at the Christian virtues and even actually penalize the youth who have an old-fashioned Christian background? The Lord God knows the human mind and He is the inventor and originator of psychology. His rules of conduct are perfect and when followed are never failing. He knows our limitations as well as our highest abilities, but His rule of life, as Solomon gave it, brings the desired result in any circumstance of our earthly journey. "Whatsoever" takes in the bitter with the sweet and life becomes a joyous event, not a burden to be shunned.

Why not try God's rule of life? "Whatsoever thy hand findeth to do, do it with thy might".

Dry weather has an effect on hydro

The dry weather which prevailed in many parts of the Province during August resulted in reduced flows to several Ontario Hydro water powered generating stations and forced the utility to replace lost generation with more costly energy from its thermal stations.

Hydro's operating report shows water powered units supplied only 34.3 per cent of the total energy generated during the month -- compared with 41.2 per cent in August, 1974. Coal-fired units produced 23.7 per cent of energy, nuclear 15.7 natural gas 8, oil, .9, and purchases, 17.4.

The report indicates primary electrical energy demand grew to 6,609,790,000 kilowatt hours during the month, up 1.8 per cent from the

similar period in '74.

Peak electrical demand in August was 11,692,000 kilowatts. This came at 1:05 p.m. August 25.

Unit 2 at Pickering generating station, out of service since June 20 due to a hydrogen leak in its generator, was returned to operation August 5.

Nanticoke 2, damaged in July, 1974, by an explosion and resulting fire, should be back in service in time to meet peak demands in December.

Stanhope Township Council meeting

Members present included Reeve S.G. Nesbitt, Deputy Reeve James Harrison, Councillors Harry Davis, John Tomlinson and Napier Simpson. Also in attendance were Mrs. Dorothy Upton re: building permit; Mr. Neil Griffin re: water lot approvals issued by Ministry of Natural Resources and also present due date on commercial taxation; Mrs. Marilyn Stouffer, County Library Board; Mrs. Louise Watson, Sec. Treasurer, Stanhop Airport Committee; Mr. Jim Moore, Building Inspector; Mr. Fred Green representing Frank Cowan Insurance Ltd.; Mr. Derek Rolfe re: Airport Hangar proposal; Mr. Roy Barsley re: building permit; and also interested citizens. Mr. Alex Stevenson and Mr. John Barclay.

Moved by Harry Davis, Seconded by John Tomlinson. Be it resolved the minutes of the regular meeting held August 5, 1975 be adopted as circulated. Carried.

Moved by Harry Davis, Seconded by John Tomlinson. Be it resolved that Council hereby approve the issuance of a building permit to Mr. R. Fotheringham for property on part lot 24, conc. 5 subject to approval of side and rear lot line restrictions being met, also meeting the minimum square foot building restrictions, the set back from front lot line must be a distance of the average of the setback of buildings on two adjoining properties and also subject to approval of Ministry of Environment for the installation of a sewage disposal system. Carried.

Moved by John Tomlinson, Seconded by B. Napier Simpson. Be it resolved the clerk contact the Ministry of Environment requesting an extension until October 31, 1975 on the provisional certificate of approval for the dump site on Lot 31, Con. A, Hindon Township. Carried.

Moved by John Tomlinson, Seconded by Jim Harrison. Be it resolved the treasurer be authorized to cancel 1971, 1972, 1973 and 1974 tax arrears totalling \$361.50 plus accumulated interest on Roll No. 0502900-1201. This authorization given as a result of a duplication of assessment in the assessment rolls during these years. Carried.

Moved by Harry Davis, Seconded by Jim Harrison.

Be it resolved the by-law enforcement officer be authorized and directed to prepare an agreement between the Township and Mr. Barsley with regard to conditions to be attached to a building permit for the erection of a proposed permanent dwelling on Part Lot 15, Concession 3. Carried.

Moved by Jim Harrison, Seconded by B. Napier Simpson. Be it resolved that council hereby appoint Elvin Johnson as fence viewer for the Township of Stanhope. Carried.

Moved by John Tomlinson, Seconded by Harry Davis. Be it resolved council accept with regret the resignation of Stewart Dawson as fence viewer for the Township of Stanhope. Carried.

Moved by Harry Davis, Seconded by John Tomlinson. Be it resolved the council acknowledge with thanks the reimbursement of monies from Mrs. Verna Bulkowski for expenses relating to the funeral of the late William MacBrien. Carried.

Moved by Harry Davis, Seconded by John Tomlinson. Be it resolved the clerk be directed to contact the Minister of Transport and our local M.P.P. advising that council strongly feels the Haliburton Highlands Stanhope Airport should be given serious consideration in the S T O L program administered by the Ministry of Transport. Carried.

Moved by Jim Harrison, Seconded by B. Napier Simpson. Be it resolved that the council of the Township of Stanhope approve the original plan of July, 1975 regarding the application for a change in the Township road to Big Hawk Lake in Concession X, whereby the alternate road would continue in a straight line as indicated on the Survey Sketch and further that all costs in connection with the proposed change are to be borne by the applicant. Carried.

Moved by B. Napier Simpson, Seconded by John Tomlinson. Be it resolved that council hereby approve the water lots for existing docks at Cherokee Resort and Glangarrian Resort as per plans submitted by the Ministry of Natural Resources and described in file

number 54-12-05 for the Ministry. Carried.

Moved by Jim Harrison, Seconded by Harry Davis. Be it resolved that council approve in principle with the proposal presented by Mr. Henry Priestman to establish a trailer camp site on part lot 10, concession II, property known as Birch Haven; subject to submission of legal title of property; subject to all Municipal regulations; subject to approvals from Ministry of Industry and Tourism, Ministry of Environment or any other required approvals. Carried.

Moved by John Tomlinson, Seconded by B. Napier Simpson. Be it resolved the Reeve is hereby authorized to make representation on behalf of the Township of Stanhope to the Federal Electoral Boundaries Commission for Ontario, with respect to the proposed boundary ridings as advertised in the August 19, 1975 issue of the Globe and Mail.

Carried.

Moved by Harry Davis, Seconded by Jim Harrison. Be it resolved that council strongly support the Local Initiatives Program application being submitted by the Haliburton Highlands Stanhope Airport Committee. Carried.

Moved by B. Napier Simpson, Seconded by Jim Harrison. Be it resolved the clerk be authorized to attend the Fall Meeting of Zone 5 - Clerk-Treasurers to be held at Fenelon Falls on September 17, 1975 and also to forward the required registration fee (\$6.00) in this regard. Carried.

Moved by Jim Harrison, Seconded by John Tomlinson. Be it resolved the road superintendent be authorized to attend the Ontario Good Roads School to be held in Huntsville on October 20 & 21, 1975 and also the clerk

Stanhope township council

forward the required registration fee in this regard. Carried.

Moved by Jim Harrison, Seconded by B. Napier Simpson. Be it resolved that Council make application for a grant under the 1975-76 federal Local Initiatives Program for the purpose of constructing a Stanhope Municipal Library. Carried.

Moved by Harry Davis, Seconded by John Tomlinson. Be it resolved that the council of the Township of Stanhope authorize and grant permission to Mr. Ray Upton to erect a basement to be used as living accommodation until the home is completed. The time limit for completion of whole structure shall not go beyond November, 1976. Carried.

Moved by B. Napier Simpson, Seconded by Jim Harrison. Whereas, all land taxes are due August 1st, be it resolved that the Commercial taxes be adjusted to become due September 15, commencing in 1976. Carried.

Moved by John Tomlinson, Seconded by Jim Harrison. Be it resolved that general accounts totalling \$4,221.01; August Welfare totalling \$803.20 and road voucher #8 amounting to \$4,803.70 be allowed for payment. Carried.

First Reading, By-law 75-26. Moved by Harry Davis, Seconded by B. Napier Simpson. That a by-law to amend by-law number 73-21 be received and read a first time. Carried.

Moved by John Tomlinson, Seconded by B. Napier Simpson. Be it resolved that Harry Davis be appointed Chariman for the second reading of the amendment to By-law 73-21. Carried.

Second reading, By-law 75-26. Moved by John Tomlinson, seconded by B. Napier Simpson. That a by-law to amend by-law 73-21 and add the following provisions: (1) Resort Owners be allowed to use a mobile home under the following restrictions: (a) Specs. to conform with those established by M.O. Housing under Home Ownership Plan (b) No such trailer of mobile home to be visible from Highway, County, Township Road or Lake frontage or neighbouring properties (c) No such trailer or Mobile Home to be moved without Township Permit (c) Maximum of One Trailer per resort, be read a second time and be referred to a committee of the Whole Council. Carried.

Harry Davis, Chairman, S.G. Nesbitt and Jim Harrison voted nay.

Third Reading, By-law 75-26. Moved by Harry Davis, Seconded by John Tomlinson. That a by-law to amend by-law 73-21 and add

the following provisions: (1) Resort Owners be allowed to use a mobile home under the following restrictions: (a) Specs to conform with those established by M.O. Housing under Home Ownership Plan (b) No such trailer or mobile home to be visible from Highway, County, Township Road, or lake frontage or neighbouring properties. (c) No such trailer or Mobile Home to be moved without Township Permit (d) Maximum of one trailer per resort, as reported by the committee of the Whole, be read a third time, passed and numbered 75-26 and that the said by-law be signed by the Chairman and Clerk, sealed with the seal of the Corpora-

tion and be engrossed in the by-law book. Carried. B. Napier Simpson, Chairman.

S.G. Nesbitt and Jim Harrison voted nay.

Reeve Nesbitt refused to act a signing officer for the Township of Stanhope on By-law 75-26 and it was therefore moved by John Tomlinson, Seconded by Harry Davis, that B. Napier Simpson be appointed Chairman for the third reading of By-law 75-26. Carried.

Moved by Jim Harrison, Seconded by B. Napier Simpson. Be it resolved this meeting do now adjourn at 6:45 p.m., until October 1, 1975 at 9:30 a.m., unless called sooner by the Reeve.

Tribute to Melvin White

12 Mile Lake, Carnarvon

It was here that we met him six years ago, and we now envy the people who knew him more years than we.

For approximately 20 years Melvin White and his wife spent their summers in their residence on "Twelve Mile Lake", and in his heart he felt and often said "there is no finer spot in the North".

He was a distinguishing tall, well built elderly gentleman, born on a farm in 1896. In his late fifties he left the land and procured a home in Lindsay on Sussex St. - He

was fond of people and this led him into Real Estate.

His genuine interest in his fellow man was as big as he himself. Through the summers at "the lake" and winters in Lindsay, he visited hospitals, Senior Citizens homes, people confined to their homes and the bereaved. Towns and cities for miles around Lindsay were well known to Mr. White.

He took great delight in calling on, year round as well as summer residents around the Haliburton - Minden areas. Store keepers and restaurant owners will miss

the tall familiar figure.

He revelled in the Fall Fairs and drove miles to attend and cheer on the ball players.

We chuckled many times at his humorous stories of his present activities and equally enjoyed his antidotes of the past that were punctuated with old phrases such as "tamarac'er down" and "the fellas I knock around with". We wish we could remember them all.

Two years ago my husband said to our two growing young men "Listen to Melvin, he is elderly and we won't always have him. He has much to offer you young boys, he is a Special Vintage."

And the boys listened, along with the many young men who visited our summer home. The boys affectionately dubbed the dear old fellow "Good old Melvin". The friendship between the young generation and the older generation was a joy to see.

Now this joy has been taken from us, but with Thanksgiving drawing near we are thankful for this life along with our many blessings.

May we say "good old Melvin thanks for enriching our lives - you were so darned "homespun" we'll all miss you.
The Norman family
12 Mile Lake

Carnarvon news

Mr. and Mrs. Art Sovereign of Honey Harbour called on the Maurice Windsors last week.

A very unique service was held in the Zion United Church last Sunday, commemorating the 50th anniversary of the United Church.

It took the form of a wedding service and several couples who had been married in the church in the last 50 years were present. As a lot of the couples have moved away from here, some in B.C., Manitoba and the States did not attend, but Mr. and Mrs. Raymond Chiasson and family of Burnt River, Mr. and Mrs. Fred Gregory of Ottawa, Roger and Barbara Harrison and family of Oshawa, Mr. and Mrs. Bert Harrison of Haliburton. Also the married couples who attend our church regularly renewed their marriage

vows, it was a very impressive service, this was also repeated at Maple Lake United Church, and Minden United Church.

Mr. and Mrs. Stevenson of Maple Lake who attend our church were celebrating their 40th wedding anniversary on that day.

Mrs. May Pounds and her friend Mrs. Goodfellow of Toronto called on Mrs. Stutt as they were on their way to see the colours in Algonquin Park.

Our deepest sympathy is extended to Mr. Murray Campbell who has a cottage on 12 Mile Lake, in the loss of his wife. Mr. Campbell is a brother to Mrs. Hal Burton, and they will be attending the funeral which is to be held in Windsor on Wednesday, they are also taking Mrs. Roger Harrison of Oshawa with them.

Increase in prosecutions under the Construction Safety Act, 1973

There was a massive increase in successful prosecutions and a tripling in the amount of fines assessed in the first six months of 1975 compared with the same period a year ago as the Ministry of Labour's Con-

struction Safety Branch increased its efforts to improve construction safety in Ontario.

By the end of June, there had been a total of 500 successful convictions under

The Construction Safety Act, 1973 with \$119,740 assessed in fines, compared with 96 convictions and \$41,235 in fines a year ago. The fines included a \$5,000 penalty, the highest yet under the Act, imposed on a Welland constructor for failure to install shoring in a trench in which a workman was buried alive.

Also for the first time under the Act, a jail sentence was imposed on a Westport constructor for failure to effectively ground a portable electric drill when in use. A young workman was electrocuted by the drill. The Act provides for a fine of up to \$10,000 or for imprison-

ment of not more than one year or both.

"The field staff of our Construction Safety Branch are deeply dedicated to the cause of reducing accidents, particularly those that cause death", said Keith Cleverdon, Director of the Branch, "I have instructed my staff to lay charges in every situation in which the major causes of fatalities, such as electrical hazards, unshored excavations and hazards leading to falls between heights, are found on construction sites."

The Act, which came into force on August 1, 1973 there were 18 construction fatalities, compared with 17 in the same period a year ago. In

1974 there was a drop of over 16 per cent in the number of fatalities reported, with a total of 54 for the whole year.

Falls between levels, electrocutions and cave-ins continue to be the main killers on construction sites, accounting for 55 per cent of the fatalities in the first six months. But this represents a drop of nine per cent over the same period last year.

There were a total of 15,360 inspections up to the end of June and there were 7,908 accidents reported.

Haliburton Personals

Mrs. Diane Bock of Los Angeles, California was a visitor at the home of Mr. and Mrs. Harold Bannon last week.

Mr. and Mrs. Rick Poole have returned home following a vacation.

Mr. Louis O'Hara who is attending Laurentian University in Sudbury spent the weekend at his home here.

Mr. and Mrs. Ken Wilson were out of town visitors over the past weekend.

Mr. and Mrs. Jack Rule of Toronto were visitors here over the weekend.

We are sorry to report that Mrs. Bob Morrow is at present, a patient in a Toronto hospital following a back operation. We wish her a speedy recovery.

LaRue Motor Sales Limited, Grand Opening on Saturday was a great success as hundreds were on hand for coffee and do-nuts and to look over their operation and get a first hand view of the Ford line of cars and trucks.

HOSPITAL PATIENTS
The following are the names of the people who are

patients at the Red Cross Hospital in Haliburton this week.

James Allan, Archie Trumbull, Harvey Minaker, Mrs. Annie Silver, Mathias Barry.

Maple Lake news

The Autumn is here with all its splendour of colour in spite of all the rain we had.

Mr. Harold Dawson from Calgary was home visiting his parents, Mr. and Mrs. Stewart Dawson.

We are sorry to hear Willert Gibbs is in the hospital. We all wish you a speedy recovery.

Mrs. Margaret Cook visited with her daughter, Mrs. Howard Thompson in Huntsville for a few days.

Mrs. Henry Howe is home again from Peterborough.

Mrs. Carrie Morrison has gone to spend a few days with her daughter in Nova Scotia.

Miss Ada Gibbs and Miss Dora Dawson have gone on a motor trip to see the colours.

Thank-You

George and Annie Jones wish to thank all persons who participated in making their 50th Wedding Anniversary Celebration such a tremendous success.

Marriage

Mr. and Mrs. Robert Barry are happy to announce the marriage of their daughter Patricia to Mr. Beverly Gerald Hicks of Lochlin. Wedding to take place at 4:30 p.m. on October 11, 1975 at the Haliburton United Church. Dance at the Royal Canadian Legion, Haliburton at 9:00 p.m. Friends and Relatives welcome.

In Memoriam

MAGUIRE - In loving memory of a dear father and grandfather Howard B. Maguire who passed away October 3, 1962. The flowers we place upon his grave, Shall wither and decay, But the love for him who sleeps beneath Shall never fade away. Sadly missed by daughter Florence, son-in-law Christie and granddaughter Doreen.

In Memoriam

FERRIMAN, D. Noreen with us now and eternally with God. Dad, Larry, Sean and Wayne.

MISCOE - In memory of a dear father Mike, who passed away September 25th, 1972.

We think of you so often
As the days swiftly come and go
So many things have happened
Since you were called away
But you would have us carry on
And do the best we can
To some it may be forgotten
To others a part of the past
But to us who loved you and lost you
Your memory will always last.
Sadly missed and ever remembered by daughter Vera.

In Memoriam

THORN - In loving memory of a dear husband, Harvey, who passed away September 24, 1971 and son Richard who passed away June 1972. Their dear bright eyes and merry faces
Are pleasant to recall
They had a loving word for each
And died beloved by all.
Always remembered by wife and mother Lucille.

WRUTH, Margaret - In loving memory of Mother and Grandma.
Looking back in memory
Upon the path you trod
We bless the years we had with you
And leave the rest to God.
Ever remembered - Murray, Ruth, Dwain, Arlene and Jim.

SAWYER - In loving memory of a dear son and brother, Harold Wayne, October 3, 1972.

Remembrance is a golden chain
Death tries to break, but all in vain;
To have, to love, and then to part,
Is the greatest sorrow of one's heart.
The years may wipe out many things,
But this they wipe out never
The memory of those happy days
When we were all together.
Fondly remembered by Dad and Mom, sisters Bev Hughey, Rose and Murray Ackley and families.
